

INTRODUCING THE INNOVATIVE QUICK-CONNECT PUMP FITTING

Installation Is As Easy As 1...2...3!

What is a Quick-Connect Fitting?

Our unique **Quick-Connect Fitting*** features a metal ring with teeth that firmly grip PVC pipes, eliminating the need for messy PVC primer, glue or inconvenient plumber's tape.

How Does It Work?

- STEP 1** – Insert the PVC into the Quick-Connect Fitting as far as possible.
- STEP 2** – Turn the Quick-Connect Fitting to tighten it around the PVC.
- STEP 3** – Hold onto the PVC and lower the the pump into the pit. That's it!

What Are The Benefits Of The Quick Connect Fitting?

A typical 30-minute installation now takes **just 30-seconds**, allowing more sump pump installations per day. Plus, there's no strong primer/cleaner smell left behind.

The Innovative Quick-Connect Fitting saves time, money, and is so convenient!
